***Reasons for Allowance***

1. The following is an examiner's statement of reasons for allowance: The applicant has claimed a method of combining a water-in-oil emulsion polymer and surfactant that prevents precipitation and coagulation of the polymer. This is accomplished by a sequencing of steps that starts with adding the surfactant to an aqueous saline fluid, which creates an aqueous saline solution. Then the emulsion polymer is added to the aqueous saline solution, which prevents the precipitation and coagulation that would normally occur.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
